INTRODUCTION

This publication provides data on payment, clearing, settlement systems and financial sector for Latin American and Caribbean countries, also known as Yellow Book Statistics.

The Yellow Book Statistics are developed within the framework of the Western Hemisphere Payments and Securities Settlement Forum (WHF). The World Bank and the Center for Latin American Monetary Studies (CEMLA) lead this Forum, whose main objective is to provide permanent support to central banks and other relevant financial authorities in strengthening financial market infrastructures, thereby supporting financial stability and the overall economy of Latin America and the Caribbean

Yellow Book Statistics was prepared by the WHF Secretariat and benefited from the guidance of the International Advisory Council, especially from the Committee on Payments and Market Infrastructures (CPMI) of the Bank for International Settlements (BIS).

The Yellow Book Statistics comprise two series. Series “A” are statistics on payments and securities clearing and settlement for each country. Series “B” are more general statistics related to the financial sector. Series A is organized in two items, namely Country Tables and Comparative Tables.

This document presents the Comparative Tables of the Yellow Book Statistics. For a time span of 2010-2015. These Statistics are a complement of the public country reports, the Yellow Books. Country tables are separately presented and are available at <http://forodepagos.org/>.

Any communication related to the data contained in the Yellow Book Statistics can be directed to the WHF Secretariat (mmorales@cemla.org).

PS1:
Argentina: * System's operations are open to financial institutions. However to other agencies require authorization. The ATM Network processed clients transfers in real time and gross terms. For financial entities the settlement is made by the clearing house by multilateral netting.
Brazil: ⁽¹⁾ Any financial institution holding a reserve account or a settlement account at the Central Bank of Brazil⁽²⁾ The system is owned by CIP, a not-for-profit association owned by banks.⁽³⁾ Any bank holding a reserve account at the Central Bank of Brazil⁽⁴⁾ The system is owned by BM&F BOVESPA, which is a for-profit company. ⁽⁵⁾ Any bank authorised by the Central Bank of Brazil to carry out FX transactions and holding a reserve account at the Central Bank of Brazil⁽⁶⁾ Payments become final at the moment settlement is completed by the system, which occurs throughout the day⁽⁷⁾ T and T+1 are also possible, but the relevant volume and value are very low.⁽⁸⁾ The time of settlement finality depends on the value of the cleared documents.

México: ⁽¹⁾ Settlements take place several times during the day, but they are so frequent that almost perceived in real time⁽²⁾ Third-party orders carry out through mobile devices are 24/7.⁽³⁾ SPEI opens at 19:00 of the previous day and most of the CLS and government payments settle before 7:45.
Trinidad y Tobago: ⁽¹⁾ For Bank to Bank transactions.

PS2:
Costa Rica: ⁽¹⁾ Funds Transactions (credit) in real time. ⁽²⁾ Settlement to ATH and Pension Operator are included.
